

The Climate Change Road Ahead For Kane County

Looking Back...

Kane County has experienced changes in climate:

Where Is Summer Going?

As Skokie's climate continues to warm, summer weather will be similar to what communities to the south already experience.

2020 Kane County IL

2030 Pontiac, IL

Looking Ahead...

What Climate Changes could Kane County see by 2050?

2040 Springfield IL

2050 St Louis, MO

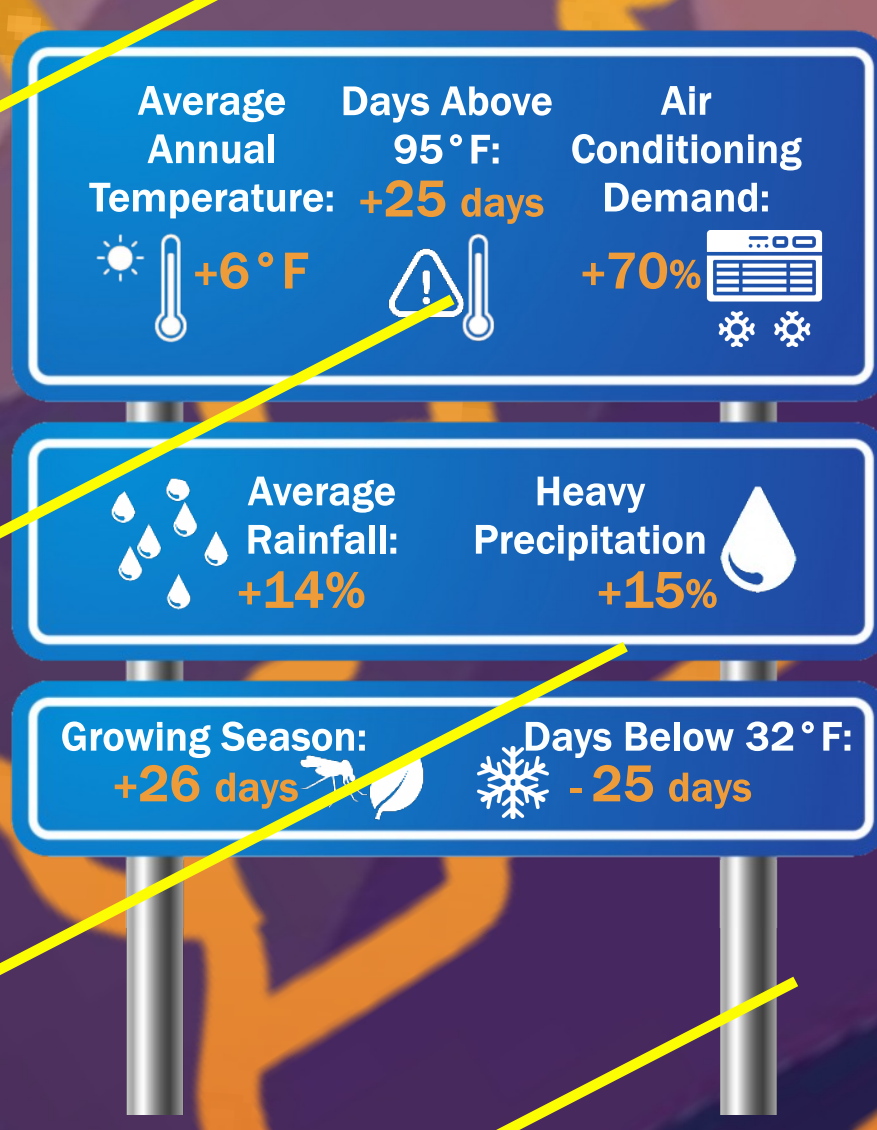

2060 Springfield MO

2070 Jay OK

2080 Smithville OK

2090 DeKalb TX

2100 Mesquite TX

Responding To Change

How Might These Climate Changes Impact Kane County?

Who is Most Vulnerable?

Across the United States, people and communities differ in their exposures, their inherent sensitivity, and their capacity to respond to, and cope with climate related threats. Community members who are most vulnerable include:
